

Sandblast your own glass during Open Studios at

During our October & November open studio events, visitors will once again have the opportunity to sandblast their own glass.

How it Works

1) You pick out the glassware you want, from a wide variety we have on hand including water, wine and beer glasses starting at just \$3 each.

2) You decorate your glass using stencils that you make from sticky-back vinyl using one of our punches including all sorts of animals, leaves, symbols, etc., or if you want a more complex design, we also have a wide selection of pre-cut stencils to choose from and we can make custom lettering to personalize your design.

cabinet. It's really fun and easy to do yourself, but if you'd prefer, we can do that part for you.

4) You wash off your glass, then remove the stickers and tape. Everything that was covered will still be clear and everything else will be frosted, making your design permanent.

This is a fun, creative project for all ages and a great family activity. Bring your spouse and your kids and invite your friends. You'll all have fun and leave with some special keepsakes for yourself or unique gifts to give away.

3) You sandblast your glass in our sandblast

The studio, including our showroom, will be open for shopping and asking questions. We'll have a wide selection of fused glass and sandblasted glassware including gilded glass available for purchase and we are happy to consider commission requests for custom glass art.

Candlelight Glass Open Studio events happen on

Oct 13-14, 2018 from 11am to 5pm

Oct 20-21, 2018 from 11am to 5pm
